ELIZAVETA DOROSHCHENKO
QA ENGINEER

I am a beginner QA engineer, highly motivated and continue to grow professionally.

I have knowledge of Quality Assurance theory, API testing, Test automation with Java, web UI technologies, databases, etc.

Quick-learner with a high self-organization skills, I am 100% ready to put in the work.

EDUCATION

Quality Assurance - Self Education
Over the last months I have been actively studying the Quality Assurance and Test Automation areas which I'm interested a lot.
I have a self-education plan and follow it.

During my self-education, I read many articles, several books, watched many courses and videos on YouTube.
Per each styded item I do some practical tasks, so I have a lot of completed ones.
See my portfolio/self-learning report on **GitHub**.
